

# Japan Weeks for the Realization of an International Financial Center

- ❑ The government of Japan, in cooperation with relevant parties, will hold **“Japan Weeks” from September 25 to October 6, with intensively inviting foreign investors and asset management companies**, to promote relevant policies for the realization of an international financial center and Japan’s attractiveness as a financial and capital market. During this period, various events will be held, including those on sustainable finance, promoting a shift from savings to investment, and promoting Japan as a leading asset management center.
- ❑ Government officials will participate in various events to communicate directly with overseas investors. In addition, domestic asset owners and asset management companies will also be invited to participate, providing an opportunity for communication among stakeholders.
- ❑ This event will be collaborated with Tokyo Sustainable Finance Week (September 30 - October 6, TSWF) and METI's GX (Green Transformation) Week (September 25 - October 6).
