- (note)
1. The number of borrowers inspected in the special inspections for the fiscal year ending March 2003 was originally 167 (with total credit amounting to 14.4 trillion yen). It decreased to 161 as a result of 6 borrowers having gone bankrupt or been removed from the B/S.
  2. Each category is assigned an area proportionate to the amount of credit extended to borrowers classified in each category as of the start of the inspections.
  3. Figures for the *four industries* (construction, real estate, wholesale and retail, and other financial services) are indicated in brackets.
  4. Figures do not necessarily add up due to rounding.
