### ● Method of Calculation of the Amount of the Administrative Monetary Penalty

1. Pursuant to Article 175(2)(ii) of the FIEA, the amount of the administrative monetary penalty is calculated as the value of item (i) minus item (ii) as follows:

(i) The volume of shares purchased multiplied by the highest price per share in the markets during the two weeks after the disclosure about the MNPI

(ii) The volume of shares purchased multiplied by the actual purchase price per share

(i)(2,615 yen × 25,977 shares (\*1)) -

(ii){(2,107 yen × 5,000 shares + 2,113 yen × 1,500 shares + 2,114 yen × 7,100 shares + 2,115 yen × 11,800 shares + 2,116 yen × 1,100 shares) × (55,000,000 yen / 56,105,479 yen)}(\*2)

= 13,034,727 yen

(\*1) The volume of shares purchased on the person's own account is calculated as follows:

(a) × (b) / (c)

(a) The volume of shares purchased on the person's account and the account of others, 26,500 shares

(b) The amount contributed by the person for the purchase of the shares, 55,000,000 yen

(c) The amount paid for the purchase of the shares including fees on the person's own account and the account of others, 56,105,479 yen  
(Any fraction less than one share is rounded down).

(\*2) The amount paid for the purchase of the shares on the person's own account is calculated as follows:

(a) × (b) / (c)

(a) The amount paid for the purchase of the shares on the person's account and the account of others, 55,998,500 yen

(b) The amount contributed by the person for the purchase of the shares, 55,000,000 yen

(c) The amount paid for the purchase of the shares including fees on the person's own account and the account of others, 56,105,479 yen

(Any fraction less than one yen is rounded down).

2. Pursuant to Article 176(2) of the FIEA, the amount of the administrative monetary penalty shall be 13,030,000 yen, as amounts less than ten thousand yen are rounded down.
